adding value to your events

Event Registration (Refund) Insurance (ERI)

Event Organisers have historically provided varying refund policies and administered the process themselves. Athletes can be signing up for an event months in advance and situations can arise that don't allow them to compete. That's why we have introduced ERI.

By offering participants this risk free safety net, procrastination becomes a lesser factor, reassuring minimal loss if they cannot attend the event for a variety of reasons (illness, accident, loss of employment, personal family tragedy etc).

Participant Personal Accident

Sporting Associations identify that Personal Accident Insurance for their Players is critical to their wellbeing and adds value to the Membership.

We specialise in arranging tailored policies that range from game day (one day cover) only to 24 hour cover which includes playing and training activities, and overseas events.

risk management

One of the most critical issues facing sport today is the volatility of the insurance market cycle. In some case, there are a limited number of Insurers suitable for the risk profile of a particular sport.

Without a long-term sustainable insurance arrangement the Sport risks having significant volatility in the insurance costs each year, or even worse without any insurance options at all.

We approach Sport & Event insurance differently. Our point of difference is through our ability to work closely with our clients on risk management and our ability to present a sustainable risk profile to the insurance market.

professional athlete insurance

Professional Athletes are exposed to a higher risk of career ending injuries, with many stakeholders affected by such exposure. Athletes consistently risk injuring themselves and, even a minor disability can be career ending for a professional athlete.

ProSport Cover provides specialised insurance solutions for Professional Athletes against career ending or temporary disabilities.

In the event of an injury, your client can be covered for his or her:

- Projected future earnings
- The cost of an Agent or Manager
- The lost contract completion
- Loss of endorsements, and many other costs

we're passionate about sport

We know the future of any sport depends on strong participation at the grass roots level. We also know that most amateur and junior clubs operate with little if any budget and rely on the passion and dedication of volunteers to survive.

Our future depends on their future, which is why we're proud to support a wide range of sporting associations at the community level and national level.
